

ABSTRACT OF THE DISCLOSURE

An activated carbon is disclosed having the following characteristics:

5

- CCl_4 number from 120% to 190%,
- P_2O_5 content at most equal to 2%,
- extraction pH greater than 7,
- bulk density from 0.18 g/ml to 0.32 g/ml, and
- electrical resistivity less than 1.5 ohm.cm.
